TWIN ANCHOR'S CUSTOM HOUSEBOATS WELCOME ABOARD

The allure of houseboating is epitomized by the recreation and freedom found only on the water. Initially, houseboats were little more than a "box on barrels" with very few amenities. They have now evolved into luxurious floating condominiums.

You'll find the houseboats created by Twin Anchors Marine are indeed people's second homes. Each houseboat is as unique as its owners. Today's boats are creatively designed, superbly crafted, performance oriented and require low maintenance. So welcome aboard, enjoy the ride and remember that your dreams are our passion.

MAKE A BIG SPLASH

A beautifully crafted houseboat is designed for family and friends to kick back and relax on. Grilling shrimp kebabs on the bridge deck, idling down the lake fishing, lounging in the hot tub under the night sky, or enjoying your water toys, this and so much more is the unique houseboating lifestyle! Immerse yourself in the family fun, sense of freedom and relaxation offered by houseboating.

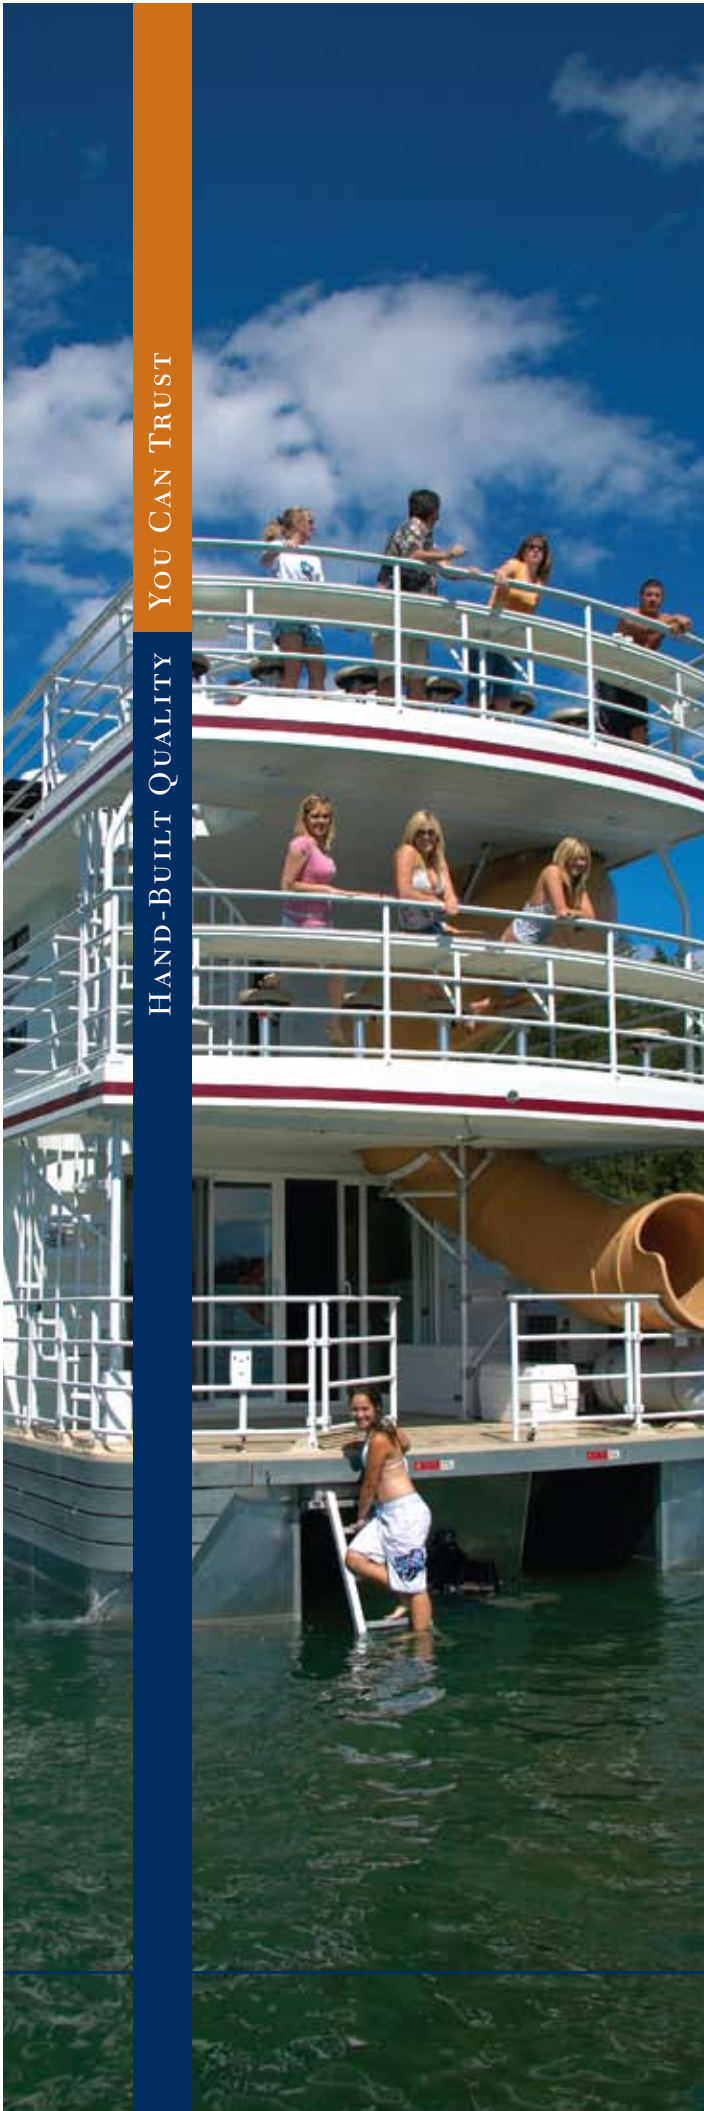

Twin Anchors knows how to make a big splash too. Our history in the houseboating industry brings over three decades of trusted building experience, cutting edge innovations, exemplary levels of service and unmatched customer satisfaction. Building houseboats isn't a job for us. It's a way of life.

VACATION HOMES CREATED JUST FOR YOU

The search for a perfect summer home can be challenging. A houseboat can offer you exactly what you're looking for; a second home with just the right mix of luxury and convenience. Getting your ideas from your head onto paper, and then turning those concepts into a reality that works for you requires expertise and dedication.

At Twin Anchors Marine we build our CruiseCraft houseboats from the hull up at our Sicamous manufacturing plant. This assures quality construction and careful attention to detail. Our houseboats are developed in consultation with a naval architect, then manufactured to selected standards of the American Boat and Yacht Council. All models meet or exceed both US and Canadian Coast Guard Standards and are NMMA Yacht Certified.

In addition to these stringent measures, we input customer feedback from our rental fleet into our manufacturing ISO 9000 quality assurance program. The results are dynamic: superior houseboats that will stand the test of time. Expect lower maintenance, overall longevity and higher resale value.

OUR COMMITMENT

The golden age of boating featured the varnished mahogany and gleaming chrome of the classic “woody”. For those lucky enough to have owned one back then, these sleek wooden runabouts offered a new kind of recreation and a freedom found only on the water. This handcrafted quality and family freedom is available to you now in the houseboats created by Twin Anchors Marine. In addition to the fine finishes and brightwork of yesteryear, all boats from Twin Anchors Marine include:

Yacht Certification (NMMA) | WHEN IT COMES TO SAFETY, MAKE SURE YOUR BOAT MEASURES UP

For a boat to earn the National Marine Manufacturers Association Yacht Certification she must comply with all of the US Coast Guard regulations PLUS the more comprehensive industry standards established by the American Boat and Yacht Council (ABYC). These standards include thirty-three categories covering electrical systems, powering, flotation, fuel systems and navigation lights. Want to know more?

Go to www.discoverboating.com and click on the NMMA logo.

Quality Assurance (ISO9000-2000) | WHEN QUALITY IS JOB ONE

An internationally recognized quality assurance program that encompasses all aspects of the build process from design to delivery. To learn more go to www.iso.org

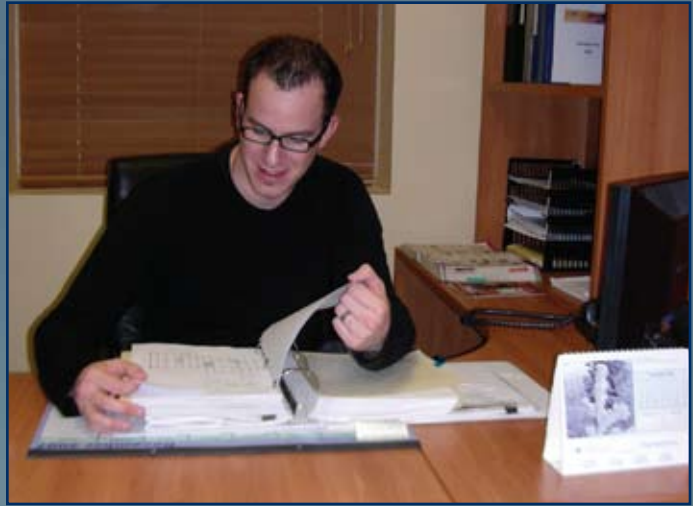

Houseboat Conference | LEARN FROM THE EXPERTS

Each year Twin Anchors Marine hosts an annual houseboat conference exclusively for our numerous valued private and commercial boat owners. Your exclusive opportunity to learn all aspects of houseboat maintenance and safety in a fun-filled environment from invited industry professionals.

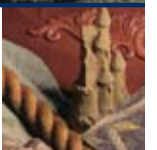

Roomy engine and generator compartments make for easy maintenance access.

A comprehensive owner's kit complete with manuals for all systems onboard is standard on every CruiseCraft.

ELEVATE YOUR EXPECTATIONS

Twin Anchors Marine is very proud of the exceptional level of expertise you'll find at our facility. In fact, we are one of a select few capable of completing all facets of construction at one facility! Our 50,000 square foot manufacturing space includes interior design and engineering departments as well as a full complement of tradespeople skilled in welding, electrical, plumbing, cabinet & millwork, furniture manufacturing and upholstery. By keeping all these facets in-house we control both costs and quality.

Naturally, we use only the best construction materials available; marine grade aluminum, specially formulated fiberglass resins and gelcoats, heavy duty cleats and deck fittings, solid wood cabinetry and seamless countertops. Yes, best is best!

TIME TESTED PERFORMANCE

Customer driven innovation is what motivates the Twin Anchors design team. As well as building boats, we manage a combined rental fleet of over 100 charter vessels operating from our marinas in Salmon Arm and Sicamous on Shuswap Lake in the interior of British Columbia. In fact, our reputation for innovative building techniques and design solutions have earned us the respect and distinction of being the manufacturer of choice to 18 premier houseboat rental marinas throughout North America. Renters are, in general, far more effective in finding shortcomings in a boat than the most diligent research and development department. Our hands-on experience in building for and maintaining sizable rental fleets makes us directly aware of the need to build boats with the rugged construction that will stand up to years of wear and tear without sacrificing style, design and luxury.

“When choosing a manufacturer to build our personal live-aboard houseboat, second best wasn’t an option. I researched and discovered that Twin Anchors was the manufacturer I was looking for. The end result: the boat we dreamed of is a reality.”

CAPT. JOHN HARDIN
SACRAMENTO YACHT CLUB, CA

“I wanted a houseboat fleet that was luxurious, dependable, required low maintenance and could stand up to the rigorous use of renters. Thanks to Twin Anchors, I have that fleet.”

YOU CAN TRUST

HAND-BUILT QUALITY

YOU LIVE. YOU PLAY. YOU RELAX.

... and so do we. You don't settle for anything less than the best and neither will we. That's why the CruiseCrafts created by Twin Anchors Marine are the most diverse, high quality and multi-purpose line of houseboats ever introduced. Compare our design, construction, overall performance, low maintenance and value with any other houseboat builder. After you have done this, we know you'll agree: Twin Anchors is an industry leader.

MAIN DECK PLANS

Having things your way never seems to happen often enough.
At Twin Anchors we custom build from the hull up;
accommodating your every wish and whim is our pleasure.

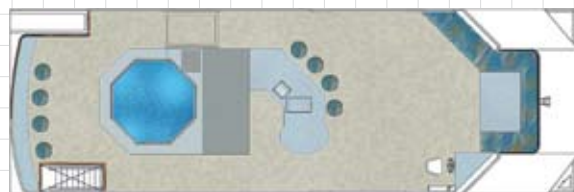

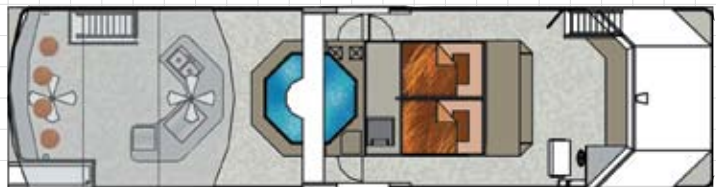

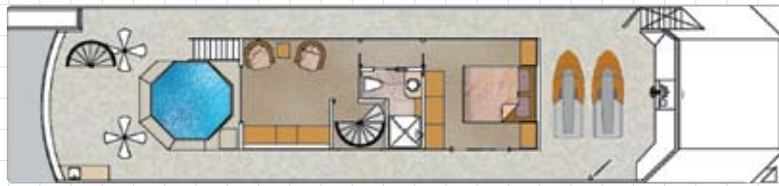

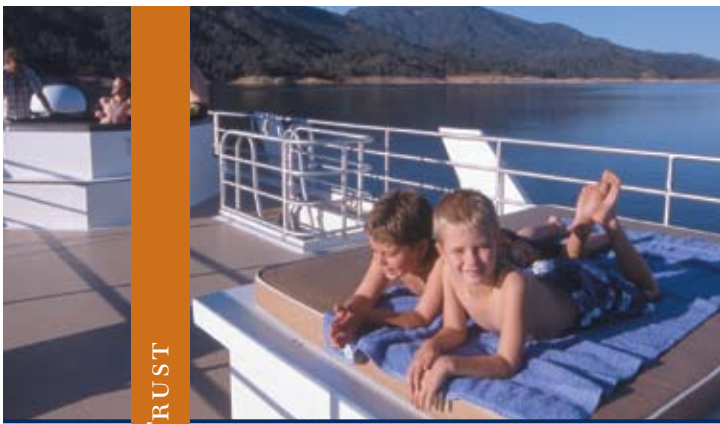

*A few examples
of floorplans we
have designed
and built to date.
Remember there
is no additional
cost for a custom
floorplan. So
have fun mixing
and matching
ideas from these
examples or
creating your own
unique design.*

BRIDGE DECKS

Bridge decks bring a whole new element to the art of outdoor entertaining. Every one we build is unique. Just imagine what we could create for you.

INTERIORS AS INDIVIDUAL AS YOU

We'll listen carefully to you in order to create the interior of your dreams. Our in-house design center carries all of the latest quality fabrics, flooring and premium finish materials to ensure your new houseboat will stand up to years of fun on the water. Twin Anchors - an industry leader.

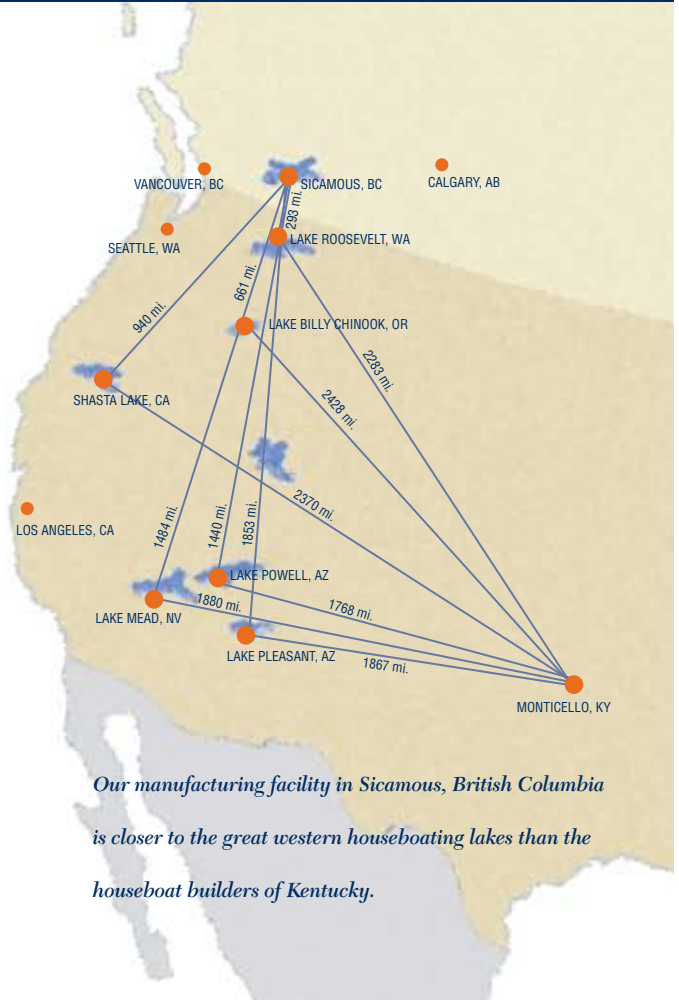

DELIVERING ON OUR PROMISE

Once we have completed the design and construction of your new Twin Anchors houseboat, we send our own delivery, sea-trial and set-up team to ensure your boat arrives safely, and is set up for years of carefree enjoyment.

We're no strangers to the logistics of shipping houseboats. We've shipped boats as far south as Lake Texoma, TX and as far east as the Atlantic coast. Delivering your new Twin Anchors houseboat to the marina of your choice is all in a day's work for us.

Our manufacturing facility in Sicamous, British Columbia is closer to the great western houseboating lakes than the houseboat builders of Kentucky.

TWIN ANCHORS MARINE. OUR NAME IS
ANCHORED TO INTEGRITY AND SERVICE.
